Chas. Peddicord, of Hancock's
ranch, was in town yesterday to
see his friend, Albert Thacker, of
Young's ranch, ride the M. W. A.
goat last night. Thos. Jelly, of
Ft. Niobrara, also rode the goat
last night.

The stewards of the church at
Harmony take this opportunity of
extending to all a cordial invitation
to be present at an oyster supper
given Saturday, Oct. 17, 1903, at
Harmony school house. Come and
participate in the cheer and plenty
that are in store for you.

Yesterday was the worst windy
day we have seen in the state. The
sand blew all day long and the air
was full, the houses staggered, the
trees swayed and now and then a
board, brick or shingle would take
a fall. The women said "O dear!"
and we all wiped our weeping eyes.

Report of school district No. 25,
month beginning Sept. 7th and end-
ing Oct. 2nd. Number of pupils en-
rolled, 8; average daily attendance,
6; number of days taught, 20.
Those not absent during the month
were Gladys and Mary Jaskson,
Harry and Jennie Kalblinger.

ALYS GASKILL, Teacher.

A colored girl was met on the
street south of the Palace saloon
last Friday afternoon by James
Robinson, a colored man who had
some grievance against her or im-
agined he had, and assaulted her,
beating her over the head severely.
He was arrested and placed in jail
and a charge of assault was made
against him, but on Sunday he was
charged with being insane and he
was brought before the insanity
board on Monday. He was not
thought to be insane and it seems
that the case will be dismissed
against him.

The dipping plant at Crooks-
ton has been equipped with a
"squeezer" for branding and de-
horning. Therefore, hereafter
one can have his cattle dipped,
branded or dehorned or all as he
sees fit. J. H. Bachelor will dip
700 head the last of this week, hold
near Crookston and give them a
second dip ten days later. Cattle
men are commencing to realize
that dipping is the only effective
remedy against lice and itch, and
that there is no use trying to keep
cattle in growing condition where
either disease is in the herd.
Therefore, dipping will become
more popular until the contagion
is wiped out.

Dr. C. M. Headrick of Omaha, has
been requested by a number of his
patients to stop over one day when
making his annual trip to the Black
Hills. In compliance with this re-
quest he has decided to visit Valen-
tine, Friday and Saturday, Oct 16th
and 17th at the Donohoe hotel. He
will give a free consultation and ex-
amination of all that can see him that
day. Dr. Headrick is in no sense a
"travelling doctor" but makes this
visit to accommodate a number
that wish to consult him, and save
them an expensive trip to Omaha.
His practice is limited to chronic
diseases, and will be prepared at
this visit to make examination by
electrical illumination.

Niobrara Falls.
Mrs. Metzgar is home from a
short visit in Valentine.

Merton Holsclaw and wife visited
this locality two weeks ago.

R. Grooms and Ben Lansing have
a foot bridge across the river.

Everybody is busy as usual; hay-
ing almost done; potato digging
now in order.

John Ormesher recently filled a
contract of 700 bu. of potatoes. It
kept John hustling but he got there
just the same.

Mrs. Lansing and daughter, Mrs.
Cora Beamer, met with an accident
one day last week as they were go-
ing to visit Mrs. Ormesher. Their
buggy upset, throwing them about
20 feet shaking them up pretty
badly, but fortunately they were not
seriously hurt.

Catalina Island The Ideal Resort of the Pacific Coast.

Los Angeles California.

Very few of you but have read
of Catalina Island, situated in the
Pacific ocean, about 50 miles from
Port Los Angeles, and is about 5
hours ride by rail and steamer from
the heart of the city. Munsey's
magazine has in the past published
articles on the tuna fishing, which
is found to be the best in the world
at Catalina Island.

The town of Avalon is situated
on the east coast of this mountain-
ous island in a beautiful cove or
bay which is very placid as it does
not have the prevailing winds from
the Pacific ocean, and it is seldom
that the waters of Avalon bay bear
a ripple of excitement, or are dis-
turbed by other than the pleasure
launches and glass bottom boats
that skim leisurely over the marine
gardens, and which can be seen
through the clear bottom of these
boats. These wonderful marine
forests are inhabited by myriads
of beautiful fish, some even as long
as your arm, mingle in peaceful
harmony with the deep sea fish of
large and small dimensions, and
darting among the beautiful green
sea plants form one of the most
beautiful sights I have ever wit-
nessed.

People from all parts of the world
congregate at the little town of
Avalon, which is a veritable city
of tents. As the tender lands you
on the wharf you are confronted
by the commercial center of this
little city, and radiating from this
point, long avenues bordered on
either side by immense eucalyptus
trees, lead one back to the city of
tents, which are arranged in streets
and cross streets in exactly the
same manner as a city is laid out.
Each tent occupies a lot of its own
and each block is supplied with
modern conveniences in the way of
water, sewerage, etc. The streets
are as carefully kept as in a city.
These tents are of various sizes,
and the company who owns the
island will rent you complete out-
fits for housekeeping.

As I was kindly supplied with
letters from Nebraska friends to
their friends here, we were invited
to join a party spending a few
weeks at the island, and we enjoy-
ed tent life which of course includ-
ed bathing, boating, fishing, tennis,
etc., and each evening we were de-
lightfully entertained by a most ex-
cellent band, giving out door con-
certs, also including music for
dancing in a large pavilion which
is beautifully floored. The dancing
is greatly enjoyed by the younger
inhabitants of the summer city.
All of this is provided by the own-
ers of the island; and the only
necessity for those wishing to en-
joy an outing is a rather deep purse,
as, naturally, living expenses are
much higher there than in the city.

I have on my desk a scale from
a sea bass which is nearly an inch
in diameter, and gives one some
idea of the immense fish that are
caught around the island. We
witnessed the landing of one called
the sun-fish, which weighed nearly
1800 pounds.

The island proper is but a bar-
ren range of mountain, and until
recently was owned and occupied
solely as a sheep ranch, but a few
years ago it was purchased by the
present owners for something less
than \$50,000 and valued now at
several million, solely as a resort.
It is only about 20 miles long, and
an average of 5 or 6 miles in width.
The pleasure crafts take you about
the island on a very enjoyable trip,
at the south point of which are
promontory rocks called Seal Rock,
which are constantly occupied by
large seal and their babies, a very
pretty sight indeed as we can go
very close to them, and the little
fellows make you think of the
softest, woolly puppies, minus the
claws and teeth of the latter, and
their little faces so nearly human
that they are almost pathetic, gaz-
ing with their big blue eyes in the
mute appeal of their helplessness.

The only sport outside of fishing
is that of goat hunting, as there
are still some wild goats on the
island, and there are a few arduous

individuals who seem to enjoy
climbing for these animals can often
be seen from the boats, but are
too far away to be reached by rifle
unless one climbed the mountain.

As the Pacific cable from San
Francisco to Honolulu does not
pass this way, the only telegraphic
connection between Avalon and the
main land, a distance of 50 miles,
is by Marconi's wireless system,
which is now thoroughly establish-
ed, and I received a message from
my wife in answer to a letter, so
that I am not among the doubters
of the practicability of the plant,
and if the editor of THE DEMOCRAT
requests, I will write you a letter
about the same, which has been
quite an object of interest to me.

ROUND THE WORLD

A Wonderful Trans-Pacific
Journey of Six Months via

THE NORTH-WESTERN LINE AND ITS CONNECTIONS.

In line with its well known policy of
development of trans-continental and
trans-Pacific travel, the Chicago &
North-Western Railway is now organ-
izing a personally conducted round-
the-world tour, to leave Chicago in
October, visiting Hawaii, Japan
China, The Straits Settlements, Cey-
lon, India and Egypt, returning via
the usual European points of interest
on the way home.

The party will be most admirably
provided for en route. The railway
trip will be made on luxurious fast
trains through the great Mississippi
Valley over "the only double track
railway between Chicago and the
Mississippi River," and west via Den-
ver and through the mountain won-
derland of Colorado and Utah. The
trip across the Pacific will be on one
of the magnificent new Pacific Mail
Co's steamers.

This trans-Pacific traffic has grown
to such proportions that the service
has been improved and elaborated un-
til in many respects it is said to vie
with that found on the finest trans-
Atlantic greyhounds.

The trans-Pacific route is the com-
ing highway over which American
pleasure-seekers will travel for re-
creation and sight-seeing. Hawaii, Ja-
pan, China, Australia and our own
Philippine possessions are full of in-
terest and the number of visitors to
these faraway lands increases with
the improved facilities for travel.

SHIRFIELD, Ellettsville, Ind.

Theford's Black Draught
quickly invigorates the ac-
tion of the stomach and
cures even chronic cases of
indigestion. If you will
take a small dose of The-
ford's Black Draught occa-
sionally you will keep your
stomach and liver in per-
fect condition.

THEFORD'S BLACK-DRAUGHT

More sickness is caused by
